Signatures for Homework / Project Work / Thesis

To successfully complete a thesis (or other similar work), regular consultations with the supervisor are required. During the preparation time up to the deadline, at least six (6) consultations must therefore take place with the supervising professor at HAW Hamburg. This was true 20 years ago at the Department and is still true today.

Please bring this signature page with you to the consultation to receive the signature.

Please submit the signature page (or its electronic copy) when handing in your thesis (or other similar work).

Note: A low number of signatures / consultations can be a reason for deviating from the topic. Too few consultations can lead to a reduced quality of your work.
