Dear Prof Scholz,

RMIT UNIVERSITY EXAMINATION DUE 08 SEPTEMBER 2016 –
CANDIDATE: JULIAN SCHIRRA

Thank you for your acceptance of our invitation to act as examiner for the
thesis titled 'Accurate Induced Drag Prediction For Highly Non-Planar Lifting
Systems', for the award of Doctor of Philosophy. This work is by the candidate
Mr Julian Schirra, who is under supervision of Dr Jonathan Watmuff.

Attached to this email are the following documents:
• *RMIT Advice to examiners of Doctor of Philosophy*, please ensure to read this
  prior to commencing your examination.
• *Examiner instructions for the Learning Repository, Equella*
• An examiner's report form
• An honorarium claim form.

Please complete and return the report and claim forms by email, together with
your written report, no later than 08 September 2016.

Accessing the thesis
RMIT disseminates theses electronically. Mr Schirra's work is available for
download from the RMIT Learning Repository, Equella. The attached document
Examiner instructions for the Learning Repository, Equella provides the five
step process for accessing the thesis, including the login link. Your unique
username and password to log in are the following (N.B. case sensitive):
...
This thesis examination will not comprise an oral component or viva, and your
report should be based on the written work alone. Please note, it is not
appropriate to contact RMIT University academic staff or the candidate regarding
the examination or the examination process. As the examination is a confidential
process, please correspond only with the School of Graduate Research
Examinations Office until the outcome is confirmed. Please do not hesitate to
contact me should you have any questions.

Yours sincerely,
...
