## 2nd Asian Workshop on Aircraft Design Education (AWADE)

On October 18th and 19th, 2nd Asian Workshop on Aircraft Design Education (AWADE) was held at NUA A. The International Cooperation Office and the College of Aerospace Engineering jointly organized the workshop.

More than 20 representatives from Australia, America, Germany, Russia and Beijing University of Aeronautics and Astronautics attended the workshop. It was the first time AWADE joined hands with the European Workshop on Aircraft Design Education (EWADE).

During the ceremony, Anatoly Kretov, NUA A's foreign expert and the president of AWADE, briefly introduced AWADE and EWADE. After the opening ceremony, a total of nearly 30 reports were discussed covering design ideas and concepts, modern aircraft manufacturing methods, new materials, new economic efficiency of the landing gears, development of unmanned aerial vehicles (UAV), aircraft fuels, aircraft system design, aircraft conceptual design, aircraft noise solutions, airworthiness, and new aircraft concepts.
