Contents

1	Introduction
1.1	Aircraft Systems General
	What are Aircraft Systems?
	Significance of Aircraft Systems
	Historical Trends
	Intention and Scope of this Section
1.2	Definitions
1.3	Breakdown
1.4	Certification
1.5	Safety and Reliability
1.6	Mass
1.7	Power
1.8	Costs and Trade-Off Studies
110	
2	Air Conditioning (ATA 21)
2.1	Definition
2.2	Fundamentals
2.3	Heating Systems
2.4	Cooling Systems
2.5	Pressurization System
2.6	Example: Airbus A321
3	Electrical Power (ATA 24)
3.1	Definition
3.2	System Classification
3.3	Power Generation
3.4	Power Distribution
3.5	Example: Airbus A321
4	Equipment / Furnishings (ATA 25)
4.1	Definition
4.2	Elements of Equipment
4.3	Cabin Design
4.4	Passenger Seats
4.5	Emergency Evacuation
4.6	Example: Airbus A321

- 5 Fire Protection (ATA 26)
- 5.1 Definition
- 5.2 Detection Fundamentals
- 5.3 Overheat Detection
- 5.4 Smoke Detection
- 5.5 Extinguishing Fundamentals
- 5.6 Engine and APU Extinguishing
- 5.7 Cargo Extinguishing and Inerting
- 5.8 Passenger Compartment Extinguishing
- 5.9 Example: Airbus A321
- 6 Flight Controls (ATA 27)

7 Fuel (ATA 28)

- 7.1 Definition
- 7.2 Fuel General
- 7.3 Fuel Storage
- 7.4 Fuel Distribution
- 7.5 Fuel Jettison
- 7.6 Indicating
- 7.7 Example: Airbus A321

8 Hydraulic Power (ATA 29)

- 8.1 Definition
- 8.2 Purpose
- 8.3 Principle
- 8.4 Components
- 8.5 Example: Airbus A321

9 Ice & Rain Protection (ATA 30)

- 9.1 Definition
- 9.2 System Classification
- 9.3 Icing Fundamentals
- 9.4 Pneumatic Boot Systems
- 9.5 Hot Air Systems
- 9.6 Electrical Resistance Systems
- 9.7 Fluid Systems
- 9.8 Windshield Ice and Fog Protection
- 9.9 Windshield Rain Protection
- 9.10 Ice Detection Systems
- 9.11 Example: Airbus A321

10	Landing Gear (ATA 32)
11	Lights (ATA 33)
11.1	Definition
11.5	Example: Airbus A321
12	Oxygen (ATA 35)
12.1	Definition
12.2	Human Oxygen Requirements
12.3	System Classification
12.4	Regulators
12.5	Masks
12.6	Sources
12.7	Example: Airbus A321
13	Pneumatic (ATA 36)
13.1	Definition
13.2	High-pressure Pneumatic Systems
13.3	Low-pressure Pneumatic Systems
13.4	Example: Airbus A321
14	Water / Waste (ATA 38)
14.1	Definition
14.2	System Classification
14.3	Potable Water Systems
14.4	Waste-Water Systems
14.5	Toilet Systems
14.6	Example: Airbus A321
15	Airborne Auxiliary Power (ATA 49)
15.1	Definition
15.2	Fundamentals
15.3	Example: Airbus A321
16	Avionic Systems
16.1	Auto Flight (ATA 22)
16.2	Communication (ATA 23)
16.3	Indicating / Recording Systems (ATA 31)
16.4	Navigation (ATA 34)
17	Bibliography Acknowledgement
